ICCU – December 2022

Advancing Digital Empowerment
of Libraries in Europe

Introduction

This document provides the template for the development of the Case Studies on digital transformation in libraries.

The ADELE project aims to contribute to the internationalisation of organisations that choose a path of digital transformation. Through the network they can connect, collaborate, compare, and exchange ideas with organisations across Europe and beyond.

The 100 case studies are aimed at initiating the digital transformation of libraries and inspiring libraries that want to improve their performance on certain areas of the tool.

The areas of the ADELE tool cover the use of digital technologies in libraries from different perspectives: management, infrastructure and equipment but also lifelong learning, users training opportunities and community and stakeholders involvement.

The case studies may be linked to an activity, a service, a new professional profile, an initiative, a place or a library infrastructure in line with the areas and the statements of the ADELE tool. We aim to create a database of good practices to foster innovation and the adoption of digital practices in the library.

Title of the case study	Sapere digitale: digital civic education in the library
Area of ADELE tool illustrated by the case study <i>Please underline the selected area</i>	<ul style="list-style-type: none"> <input type="checkbox"/> <i>Management</i> <input type="checkbox"/> <i>Infrastructure, Equipment and Support</i> <input type="checkbox"/> <i>Continuing Professional Development</i> <input checked="" type="checkbox"/> <i>Self-reflection on digital competences</i> <input type="checkbox"/> <i>Learning opportunities on digital competences for users</i> <input type="checkbox"/> <i>Collaboration, Networking, and Community</i>
Description of the experience: aim, methods and outcomes	<p>The project, supported by Fondazione Compagnia di San Paolo (FCSP), aims to boost libraries' impact on media literacy, information literacy & digital skills development and to raise digital awareness in citizenship. It focuses on the impact of librarians and school teachers on the local community.</p> <p>“Sapere Digitale” consists of a professional development training program that provides participants with a deeper understanding of digital community services and tools, according to the European Digital Competence Framework for Educators (DigCompEdu)</p>
Resources needed to implement the idea Please, provide any link and/or send them in attachment	<p>Human and financial resources to carry on the project and spread it</p> <p>Digital tools</p>
Target groups	Librarians and school teachers at local and national level
Elements of innovation	<p>The element of innovation of “Sapere Digitale” is its multidisciplinary approach: teachers and librarians do not have the same background. The idea is to mix them to allow the exchange of different knowledge.</p> <p>Another innovative aspect is the mentorship and coaching we offer after the training in order to give librarians the opportunity to carry out digital knowledge acquired in their libraries by organizing events, training courses in return.</p>
Tips to other library staff using this idea	Be inspired by media literacy project of others European libraries or institutions, in particular the projects aimed at digital education of the younger generations
Keywords	#userskills #librarianskills #medialiteracy
